U.S. Immigration and Customs Enforcement (ICE)
Detainee Death Report: SIM, Lorth

Immigration and Criminal History

Mr. SIM, a 59-year-old male citizen of Cambodia, was arrested by ICE Enforcement and Removal Operations (ERO) Boston and issued with a Notice of Revocation of Release, pursuant to 8 C.F.R. 241.4, with warning for Failure to Depart, Form I-229(a). On January 5, 2026, ERO Boston transferred custody of Mr. SIM to ERO Chicago, and ERO Chicago detained him at Miami Correctional Center (MCC), in Bunker Hill, Indiana. Mr. SIM's criminal history ranges from disorderly conduct, indecent exposure, robbery, larceny and aggravated assault.

Synopsis of Events

On January 5, 2026, a registered nurse completed Mr. SIM's medical intake screening, recorded his history of diabetes treated with metformin, noted normal vital signs except for elevated blood pressure, and cleared him for general population.

On January 14, 2026, an advanced practice provider conducted a comprehensive health assessment, documented normal exam and vital signs, prescribed metformin and acetaminophen, ordered blood glucose checks, a diabetic diet, routine labs, scheduled a 90-day follow-up, and cleared Mr. SIM for general population.

On February 16, 2026, at approximately 6:15 a.m., a licensed practical nurse responded to a medical emergency observed chest compressions being performed on Mr. SIM, who was pulseless and not breathing, and noted he received supplemental oxygen, automated external defibrillation, and naloxone. Staff relocated Mr. SIM to the facility sallyport, continued CPR, called 911, and administered epinephrine intramuscularly. EMS arrived at 6:37 a.m., continued life-saving measures, and at 7:10 a.m., a physician instructed EMS to cease efforts and declared Mr. SIM deceased.
